PROFESSIONAL EXPERIENCE

ERP Data Encoder | System Accounting Staff

December 2025 – May 2026

Tomodachi Global Resources Inc. (assigned to CyberPower Systems Manufacturing Inc.)

- **ERP & BOM Management:** Maintained real-time inventory data and encoded accurate Bills of Materials (BOM) for UPS manufacturing in the ERP system.
- **Cross-Functional Operations:** Reconciled stock levels with production and warehouse teams to align inventory with active manufacturing schedules.
- **Reporting & Processing:** Generated ERP reports for planning and verified ~20 production and accounting records daily with 100% accuracy.

Freelance Web Developer (Part-Time)

February 2024 – Present

Self-Employed

- **End-to-End Development:** Designed, developed, and deployed custom responsive websites using HTML, CSS, JavaScript, PHP, and Laravel to align with client vision and goals.
- **Database Architecture:** Engineered and integrated MySQL databases for dynamic web applications, supporting core business logic and client operational needs.
- **Client Collaboration:** Conducted discovery calls to translate complex client business requirements into functional, user-friendly digital solutions.
- **Optimization & UX:** Enhanced web performance, mobile responsiveness, and SEO-friendly structures, driving better user engagement across devices.
- **Version Control:** Utilized Git and GitHub for organized source code management, feature branching, and seamless deployment workflows.

IT Intern

February 26, 2025 – June 16, 2025

Mater Dei Academy of Tagaytay, Inc.

- **Administrative & IT Support:** Processed and verified administrative and technical records with 100% accuracy, streamlining digital documentation and improving file accessibility.
- **System Maintenance:** Assisted with software updates, hardware troubleshooting, and continuous system monitoring to ensure seamless daily operations.
- **Hardware & Network Setup:** Managed the setup, configuration, and maintenance of workstations, printers, and network connections for staff members.
- **Helpdesk Assistance:** Provided prompt first-level technical support, significantly reducing IT issue resolution times for team members.
